

I claim:

1. A cover attachment for a vehicle, said attachment comprising a housing defining therein a storage compartment, said housing further comprising a lid able to seal said storage compartment, said cover attachment further comprising a cover for covering said vehicle, said cover configured for attachment to said housing, said cover configured for storage within said storage compartment.
2. A retractable cover attachment for an all terrain vehicle, said all terrain vehicle having a frame, said attachment comprising:
 - a housing for holding a cover, said housing defining an opening therein allowing said cover to be stored within said housing, said housing further comprising a lid for closing said opening thereby allowing said cover to be enclosed within said housing, said housing attaching to said all terrain vehicle frame, said housing configured for attachment to a cover; and
 - a cover for covering said all terrain vehicle, said cover configured for attachment to said housing.
3. The attachment of claim 2, further comprising a connection for connecting said housing to said cover, said connection attaching between said housing and said cover.

4. A retractable cover attachment for an all terrain vehicle, said all terrain vehicle having a frame, said attachment comprising:

a housing for holding a cover, said housing defining an opening therein allowing said cover to be stored within said housing, said housing further comprising a lid for closing said opening thereby allowing said cover to be enclosed within said housing, said housing attaching to said all terrain vehicle frame, said housing configured for attachment to a connection;

a connection for connecting said housing to said cover, said connection attaching between said housing and said cover; and

a cover for covering said all terrain vehicle, said cover attaching to said housing via said connection.

5. The attachment of claim 4, wherein said hinge attaches to said housing through use of a hinge.

6. The attachment of claim 4, wherein said all terrain vehicle has a rear end and wherein said housing is mounted on said rear end.

7. The attachment of claim 4, wherein when closed said housing is generally waterproof.
